Dimensions	12 x 12 in (each); 24 x 12 in overall
Homology Percentage report	74 %
Price USD (valuation formula)	cm ² x 0.02 x 74
Price calculated	2749.93 USD

Curatorial Evaluation

This diptych establishes a strong homologous relationship through a shared chromatic spectrum dominated by turquoise blues, oxidized reds, and earthen brown accents. Despite the reduced 12 x 12 in format, the works maintain high gestural density and material continuity.

The dialogue between panels reinforces a unified energetic field while preserving the autonomy of each composition, positioning the diptych as a cohesive and collectible entity suitable for gallery display and auction presentation.
